

Our partner in China is on an industrial park. covering 80.000 square meters having 220 employees. 50 employees as R&D and technical staff. In China they are the only local manufacture of TEDA 3000 tons/year. They produced PU amine catalyst for many years. The ISO 9001 certification of the company have achieved it already. The delayed and low-emission catalyst which can improve PU material performance is on our product list now.

### Product Catalogue

BRAND	DESCRIPTION	APPLICATIONS	EQUIVALENT
TEDA	TEDA Crystal .	Standard gelation catalyst for multipurpose use	Dabco Crystal
A-33 DPG	33%TEDA in DPG	Strong urethane gelation catalyst for multipurpose use. liquid	Dabco 33-LV
A-33 EG	33%TEDA in EG	Gelation catalyst. Widely used in MEG extended system.	Dabco EG
A-33 BDO	33%TEDA in BDO	Gelation catalyst. Widely used in BDO extended system.	Dabco 33-S
A37E	Delayed Catalyst	Non-acid-blocked, controlled-activity for MEG extended system.	Dabco 1027
A37B	Delayed Catalyst	Non-acid-blocked, controlled-activity for BDO extended system.	Dabco 1028
BDMAEE	100% BDMAEE	Standard blowing catalyst for multipurpose use	Dabco BL 19
A-1	70% BDMAEE in DPG	Standard blowing catalyst for multipurpose use. liquid	Dabco BL 11
DMCHA	Dimethylcyclohexylamine	Amine blowing catalyst used in foam and CASE applications.	Polycat8
DMEA	Dimethylethanolamine	Low odor reaction catalyst	Dabco DMEA
PMDETA	Pentamethyldiethylenetriamine	Strong blowing catalyst used in a range of rigid foam applications	Polycat5
DMDEE	Dimorpholinodiethylether	Amine blowing catalyst suitable for foam & CASE system	Dabco DMDEE
T-9	Stannous octoate	Standard stannous tin gelation catalyst for multipurpose use	Dabco T-9
T-12	Dibutyltin dilaurate	Strong gelation catalyst; dibutyindilaurate	Dabco T-12
K15	75%Potassium octoate in DEG	Standard trimerization catalyst for PIR rigid foam applications	Dabco K-15
K45	38%Potassium acetate in MEG	Trimerization catalyst applicable in PIR rigid foam applications	Polycat46
B20	Bismuth based carboxylate	Bismuth-based gelation catalyst.	Dabco MB20
BT	75%A33D&25%A-1	Balanced catalyst for continuous flexible foam	Dabco BLV
DT	20%TEDA&80%DMEA	Balanced catalyst	Dabco R-8020
AC160	Amine basis catalyst	Delayed balanced catalyst for mold foam	Dabco MP601
AC140	Amine basis catalyst	Low odor amine catalyst used in flexible and rigid foam	Dabco 2040
